visitu

1. Download the Visit U App

   Apple: **Google:**

2. Allow camera and notification access

3. Sign up via phone number (however, you can do both your phone number and email address)

4. You will receive the verification code and can start creating a profile.

Once you have created your profile, you will then be issued a personal QR code that our PCA security will be able to scan upon your arrival. This will act as a fast pass, for anytime you would like to visit the campus in the future. **Please note, the initial check in will have to done on campus with our security.**
